

Tuesday, October 25

He has received the cello that replaces the modified viola he has played on for a year. Peter was practising when I got home. The instrument has real strings and a deeper, mellower tone. Matthew tried to pull it apart.

Cheryl was up to the hospital. Her dad was surprised at how simple the operation was and how well he feels. He was up for a short walk. He got a phonecall from Peter. He learned about Peter's computer club meeting at noon. Mr. Davis has organized two clubs, a Junior Club, from K to Grade 4; a Senior Club, from Grades 5 - 8.

Both boys were in bed by 8. Matthew took a half hour to get to sleep.
